Mine Surveyor

As a valued member of the Mine Technical Services team, you will be responsible for the day-to-day setout of designs and providing plans to operators to ensure the excavation process is completed appropriately to design at the Anthill pit.

Safety is a core value at Austral and we expect all levels of employees to always act in a manner that seeks to enhance the safety culture and performance of our operations.

This role is offered on 12 days on, 9 days off roster and is FIFO from Brisbane, Townsville or Cairns.

Duties of the role:

- Demonstrate safety leadership and a commitment to a zero-harm culture
- Maintain survey control by toe and crest markups, batter checks, ramp setouts, blast boundary setouts and TBM's
- Assist geologists with ore markups and blast vector monitoring
- Installation of prisms for high wall and berm monitoring and analysis of prism observations
- Pit pickups (RTG GPS or Aerial drone surveys).
- End of month stockpile surveys and report
- End of month volume calculations for contract payment

About You:

You will have:

- Tertiary Qualifications in Mine Surveying (Diploma or higher)
- A minimum of 2 years experience as an open-pit mine surveyor
- Excellent time management and organisational skills with the ability to work independently and demonstrate initiative
- Experience with Trimble GPS
- Experience using MS Office and Surpac software is essential
- Experience with Pix4D software will be highly regarded
- Possess a current manual driver's license
- Demonstrate excellent communication skills

ELIGIBILITY:

- Candidates must be domiciled and eligible to work in Australia (without requiring sponsorship) to be considered for employment by Austral Resources.
