Project Geologist

Austral Resources – Exploration

As a valued member of the Exploration team, you will be responsible for providing quality geology services and working collaboratively with the broader Mining Team to develop new resources and maximise the value of the company.

Safety is a core value at Austral and we expect all levels of employees to always act in a manner that seeks to enhance the safety culture and performance of our operations.

This role is offered on 12 days on, 9 days off roster and is FIFO from Brisbane, Townsville or Cairns.

Duties of the role:

- Demonstrate safety leadership and a commitment to a zero-harm culture
- Supervise the collection of data from Reverse Circulation and Diamond core drilling
- Record and maintain drill data ensuring QAQC protocols are followed
- Work with the exploration team to interpret, plan and develop projects from Greenfields discoveries to resource mining.

About You:

You will have:

- Degree in Geology or a related discipline
- Previous mining industry experience – preferably gold or base metals – with exposure to exploration practices
- Excellent time management and organisational skills with the ability to work independently and demonstrate initiative
- Experience using MS Office is essential, Leapfrog, Micromine, QGIS, and Mapinfo desirable.
- Possess a current manual driver's license
- Demonstrate excellent communication skills

ELIGIBILITY:

- Candidates must be domiciled and eligible to work in Australia (without requiring sponsorship) to be considered for employment by Austral Resources.

Further information about Austral Resources is available on the Company's website. www.australres.com
