Graduate Mining Engineer

Anthill Open Cut Copper Mine

As a valued member of the Mining team, you will be mentored in the technical services team and have the opportunity to learn the business from the ground up.

Safety is a core value at Austral and we expect all levels of employees to always act in a manner that seeks to enhance the safety culture and performance of our operations.

Role requirements:

- Mining Engineering Qualifications
- Current Australian Drivers Licence
- Desire to advance your career in the mining industry
- Demonstrate excellent communication skill

About the role:

- Demonstrate safety leadership and a commitment to a zero-harm culture
- Compliance with Legislative requirements
- Involved in maintaining the Mining Plan, including:
 - Open pit, Drill and blast design
 - Medium-long term scheduling
 - Traffic management design
- Prepare operational mining instructions
- End of month calculations
- Data manipulation
- Blast control duties
- QAQC
- Survey duties

This role is offered on 12 days on, 9 days off roster and is FIFO from Brisbane, Townsville or Cairns. Remuneration will be commensurate to the skills and experience of the successful applicant.

Site amenities include a fully equipped modern camp facility with ensuite rooms, gym, pools, wet mess, internet room and NextG coverage. All transport and meals are provided.

Eligibility:

Candidates must be eligible to work in Australia (without requiring sponsorship) to be considered for employment by Austral Resources.

Further information about Austral Resources is available on the Company's website.
